

Designer Doorware Showcasing

Monte Timber Collection at ICFF Miami

MELBOURNE - AUGUST 19, 2016

Designer Doorware will be showcasing the new **Monte Timber Collection** at the first ever **ICFF Miami**, taking place on October 5th & 6th, 2016 at Miami Beach Convention Center.

Developed by the in-house product designers and inspired by the organic and textured nature of wood, the Monte Timber Collection consisted of the **Timber Quad**, **Timber Club** and **Timber Lanex** door levers blends contemporary design with high-quality materials, textures and impeccable craftsmanship.

Displayed at ICFF New York in May 2016, the Timber Quad was selected as an honoree in the NYCxDESIGN Awards in the Hardware category.

Manufactured from solid brass and environmentally-friendly sourced hardwood, the pieces are available in a choice of raw or five specially selected exterior/interior wood stains (Oil, Oak, Teak, Walnut and Charcoal), and over 20 special finishes to give any design that finishing touch.

Available now from Designer Doorware, the new Monte Timber Collection levers are designed to welcome you into a room.

ABOUT US

Designer Doorware is a premium quality provider of contemporary architectural hardware and access control solutions. As a single source expert, we enable our customers to solve access needs with ease, efficiency, convenience and peace of mind.
